

Logo Usage

ASHI offers CPR, AED, first aid, and advanced emergency care training solutions for experienced instructors who want flexibility in their classrooms and streamlined program administration at their training center.

Logo with “Approved Training Center” Endorsement

The endorsed ASHI logo is comprised of two rectangles, the ASHI logotype, and the “Approved Training Center” endorsement. These elements must be used together as a whole and never altered in any way.

Logo with “Approved Training Center” Clear Space

The ASHI “Approved Training Center” logo should always have a set amount of clear space left around it. The cap height of the H should be used as a guide for clear space.

Brand Color

Below is the approved color for the ASHI logo.

Unapproved Usage of the Logo

Below are examples of unapproved uses of the ASHI logo.

Do Not adjust the transparency of the logo over the background.

Do Not make the logo two colors.

Do Not reconfigure the logo elements in any way.

Do Not alter the proportions of the logo elements

Do Not use the logo in an unapproved color

Use of the American Safety & Health Institute Name

USAGE: When in writing, American Safety & Health Institute will either be spelled out in its entirety (each letter of each word being capitalized with an ampersand being used instead of an “and”) or abbreviated into the initials ASHI (each letter capitalized without an ampersand). The first reference in a publication to American Safety & Health Institute should be spelled out, followed by “(ASHI)”.

BRAND: American Safety & Health Institute carries the voice of a trusted market leader. It is confident in its proven background of emergency care training, but is always friendly and caring, committed to the customer’s satisfaction. It will be optimistic and trustworthy, maintaining a focus on clear and direct instruction.

VOICE: Optimistic, Caring, Passionate

MANNER: Proven, Smart, Persuasive
